

February community meeting minutes

Talacre

- Over 80% raised
- Raised really quickly! Great sign for future share offers - message to Camden that there is an appetite within the community for this kind of investment
- Business investment - future share offers
 - Went to speak to Camden Brewery - very keen - located next to Talacre
 - How would we recognise businesses?
 - Businesses can say they've invested
- Waiting for some documents before installation
- Talacre won't have to close during installation - Communicate the limited amount of disruption that installing solar panels on Talacre will cause
- Will look at number of new vs returning investors
- Will there be share offers on other sports centres eg Kentish Town Sports Centre

Other GLL centres

- Legal template from Talacre - use it on other GLL Camden centres, it's a lot easier to replicate
- Planning on Kentish Town Leisure Centre more complicated
- Swiss Cottage Sports Centre - major problem with their roof and needs repairing. Still hasn't happened
- Potential to unlock some other GLL sites - in conversation. Most immediate would be KT Sports Centre and then Swiss Cottage

Next phase - accelerating two schools projects

- Want to bundle this to one larger share offer - £100k approx
- Regents High School - Somers Town
- Parliament Hill School - Parliament Hill
- Hope to launch share offer in the next 6-8 months - depending on legals
- Will need a heritage statement on Parliament Hill School - because it's in a conservation area
- Haverstock School - does anyone have any link to governors here? Would be good to incorporate Haverstock in the bundle

Capacity issue on our side - need more technical volunteers

Acland Burghley

- Camden's decarbonisation programme incorporates solar on schools - use grant money to install solar so PUNL not able to
- With Camden, PUNL studied 50 schools and identified which are suitable for us to instal on
